DECLARATION OF KEVIN D. WILLS UNDER 37 C.F.R. § 1.47

I, Kevin D. Wills, hereby state as follows:

1. I am a Patent Attorney in the Law Department at Motorola, Inc. ("Motorola"), in Phoenix, Arizona. My responsibilities include working with Motorola employees and non-Motorola employees to prepare and prosecute patent applications for Motorola.
2. On September 4, 2003, I contacted (by phone) Richard Dykiel, who currently works for Sun Microsystems, Inc. I informed him that he was an inventor on the above patent application. I inquired if he would review the claims, specification and drawings, and sign a Declaration and Assignment pertaining to the above patent application. Richard Dykiel clearly understood exactly what he was being asked to review and sign. Richard Dykiel said he would have to consult with his in-house counsel first.
3. On September 9, 2003, I was contacted by phone by Bernice Chen, Assistant General Counsel for Sun Microsystems, Inc. Bernice Chen indicated that Richard Dykiel would not be cooperating in pursuing the above patent application, Richard Dykiel would not be signing the Declaration and Assignment pertaining to the above patent application, and NOT to send copies of the claims, specification and drawings, or the Declaration and Assignment to Richard Dykiel, or herself. Bernice Chen also indicated I was to have no further contact with Richard Dykiel regarding this patent application.

4. On September 10, 2003, I received an express written refusal (by email) from Richard Dykiel to cooperate in pursuing the above patent application, which includes a refusal to receive copies of the claims, specification and drawings, and a refusal to sign the Declaration and Assignment. The email is attached.
5. On September 17, 2003, I received an email from Bernice Chen giving me the current addresses of Richard Dykiel, and implicitly confirming my acknowledgment of her request to have no further contact with Richard Dykiel. The email is attached.
6. Enclosed please find copies of the emails indicating my attempts to gain the cooperation of Richard Dykiel in the pursuit of the above patent application.

I declare under penalty of perjury that the statements made by me in this Declaration are true and correct.

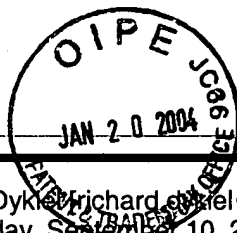

Respectfully submitted,
